

# Different Houses

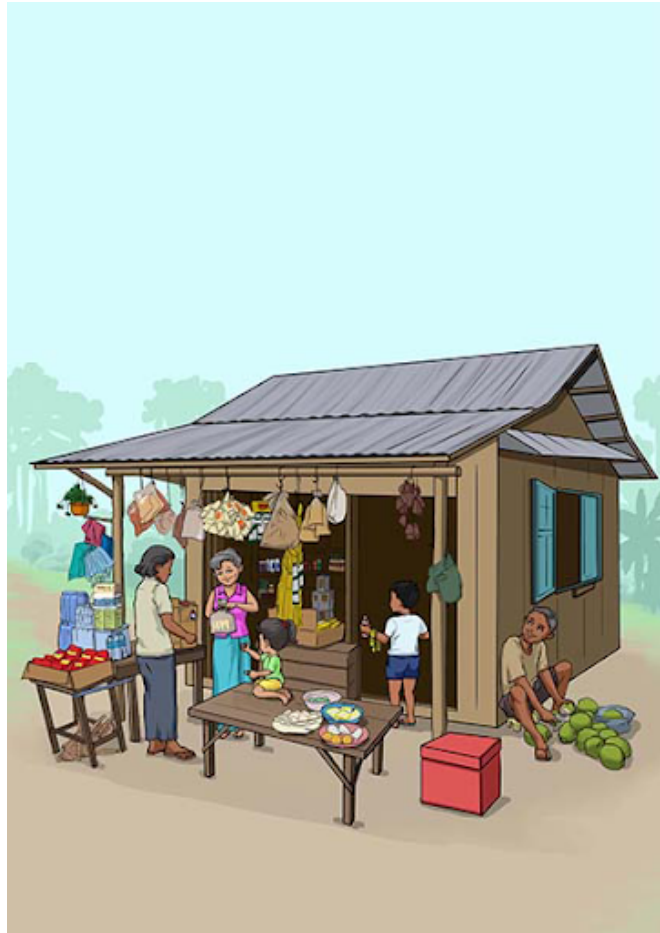

## All Children Reading - Cambodia

Let's  Read

 The Asia Foundation

My house is made of bamboo. My house is up high next to the trees.

My house is made of wood and it is on the ground floor. Mum and Dad sell groceries at our house.

My house is made of wood with tiled roof on top. I always play beneath the house.

My house is made of cement on the ground floor. My aunt sells fruit at my house.

My house is made of cement too, but it is on the first floor. My aunt opened a tailor shop at my house.

My house is made of wood at the top and of cement at the bottom. My brother opened a motor repair shop at my house.

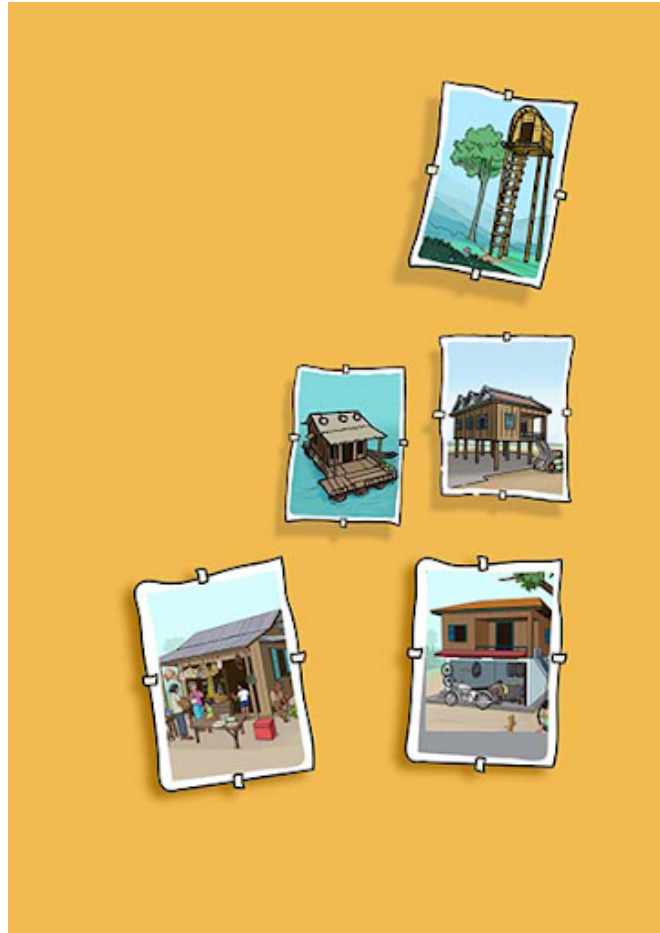

My house is made of wood floating on water.  
We can always fish.

Our country has different kinds of houses.  
What does your house look like?

Which kind house is the highest almost at the height of a tree?

Which kind of house do people open a tailor shop?

Do you know what does house on water make of?

What does your house make of? What does it look like?

Brought to you by
